## Appendix A Production Information

<b>Introduction</b> .....	576
<b>Identification codes</b> .....	576
Vehicle Identification Number (VIN) .....	576
Engine number codes .....	581
Transmission number codes .....	581
<b>Model year production runs</b> .....	582

### TABLES

Deciphering VIN codes .....	576
Standard model VINs by model year .....	577
Limited edition VINs by model year .....	579
Deciphering engine codes .....	581
Deciphering transmission codes .....	581
Production numbers for the 964 series .....	582

## Introduction

The first part of this appendix provides the Vehicle Identification Number (VIN), engine and transmission code breakdowns. From this information it will then be possible for a potential 964 purchaser to determine the validity of the VIN when doing a prepurchase inspection. More information on the VINs and codes related to prepurchase can be found in **Chapter 2**.

The rest of this appendix is devoted to providing production data.

## Identification codes

### Vehicle Identification Number (VIN)

The VIN used by Porsche for the whole 964 series is the international 17 digit system.

There are two VINs:

- Rest of the world (ROW) VIN identifies the 964 as being built to ROW specifications.

*Example:* WP0ZZZ96ZKS401786 = 1989 Carrera 4 Coupe.

The VIN is found on a data plate, installed in the luggage compartment attached to the right front inner fender. It is very near the right headlight assembly.

- USA VIN identifies the 964 as being built to US specifications.

*Example:* WP0CB2969RS465274 = 1994 Speedster.

The VIN is found on a plate attached to the left front A pillar and can be viewed from the outside through the windshield.

### Deciphering VIN codes

Digit	Code	Explanation
5	Z	ROW market designation
	A	Turbo 3.3 litre (USA)
	B	Normally aspirated 3.6 litre (USA)
	C	Turbo 3.6 litre (USA)
6	Z	ROW market designation
	0	Seat belts only (USA)
	2	Seat belts and air bags (USA)
7, 8	96	First part of type number or <i>auftragsnummer</i>
9	Z	Fill in digit for ROW
	0-9	Test digit
	or X	
10	K	1989 (production model year)
	L	1990
	M	1991
	N	1992
	P	1993
	R	1994
11	S	Place of manufacture (Stuttgart, Germany)
12	4	Last remaining number of type or <i>auftragsnummer</i>
13 to 17		Serial number of specific 964

#### NOTE —

*There is some confusion in the serial numbers for the 1990 and 1991 series of Carrera 4 and Carrera 2 Cabriolets. Existing data shows 673 delivered to the USA in 1990. This is not correct because the highest Cabriolet serial number known in the USA in 1990 is 2067, built in June 1990.*

### Deciphering VIN codes

Digit	Code	Explanation
1	W	Country of origin (Federal Republic of Germany)
2	P	Dr. Ing. h. c. F. Porsche AG
3	0	Passenger car
4	Z	ROW market designation
	A	Coupe body style (USA)
	B	Targa body style (USA)
	C	Cabriolet body style (USA)

**NOTE —**

VIN serial number ranges are not included in the limited editions which were included in a standard series VIN range. These are marked in the table.

**NOTE —**

664 M64/04 engines were built to support the production line RS 3.8s and RSR 3.8s along with the racing customers installing these engines into their race cars.

## Engine number codes

The engine number code is located on the engine block, on the right side of the crankcase next to the fan housing.

The engine code consists of 8 digits and is the same for all versions. Example:

- 62K86401 is an M64/01 engine installed in a 1989 Carrera 4 (normally aspirated).

### Deciphering engine codes

Digit	Code	Explanation
1	6	Number of cylinders
2	1 2	Turbocharged engine Normally aspirated engine
3	K L M N P R	1989 (production model year) 1990 1991 1992 1993 1994
4 to 8		Serial number of the specific engine

#### NOTE —

*Digit 4 is exclusive to Tiptronic models. In model year 1991 this number became a 5. So from this model year onwards the M64/02 engine for the Tiptronic could be identified separately.*

## Transmission number codes

The transmission number code is found on the transmission data plate.

There were two codes used.

- 12-digit code for model years 1989, 1990 and 1991
- 11-digit code from model year 1992 onwards

### Deciphering transmission codes

Digit	Code	Explanation
1 to 5	G6400 G6401 G6402	AWD (not Switzerland, Taiwan) AWD (Switzerland) AWD (Taiwan)
	G5003 G5004 G5005 G5010 G5052	RWD manual (not Switzerland) RWD manual (Switzerland) RWD manual (USA only from 1992) RWD manual (Carrera RS series only) RWD manual (all)
	A5001 A5002 A5003	Tiptronic 1990 and 1991 only Tiptronic from 1992 (ROW only) Tiptronic from 1992 (USA and Taiwan)
	6	0
6	1	1990: LSD installed, only applicable to G50 and A50 transmissions 1991: LSD not installed in G50/52 transmission only 1992, 1993, 1994: LSD not installed in G50 and A50 transmissions
	2	1991: LSD installed in G50/52 transmission 1992, 1993, 1994: LSD installed in G50 and A50 transmissions
	3	Regulated limited slip differential installed in G64 transmission
7	K L M	1989 (production model year) 1990 1991 Production model year code omitted from 1992 and later models
7 to 11		1992, 1993, 1994: Serial number of specific transmission
8 to 12		1989, 1990, 1991: Serial number of specific transmission

## Model year production runs (approximate dates only)

### ROW

K series = October 1988 through July 1989.

L series = August 1989 through July 1990.

M series = August 1990 through March 1991.

N series = April 1991 through July 1992.

P series = August 1992 through July 1993.

R series = August 1993 through December 1993, except for Speedster and Turbo which stayed in production into calendar year 1994.

### USA

K series = October 1988 through July 1989.

L series = August 1989 through April 1990.

M series (1)=May 1990 through October 1990.

M series (2)=November 1990 through July 1991.

N series = August 1991 through July 1992.

P series = August 1992 through April 1993, except for RSA which started production in Jan 1992.

R series = May 1993 through to sometime in 1994.
